

CONTRACTORS WARDROBE[®], INC.
PLUMBING CODE DISCLOSURE AND REPRESENTATION
(MUST BE SIGNED BY A PRINCIPLE OF THE COMPANY)

_____ ("Customer") understands that the 1994 Uniform Plumbing Code, as it may be amended from time to time (the "Code"), currently requires that a pivoting or hinged swinging or sliding shower door on a shower enclosure must be a minimum of 22" wide for ingress and egress. Customer represents and warrants that every shower door it orders from Contractors Wardrobe[®] will be either at least 22" wide (and otherwise comply with the Code) or, if less than 22" wide (or otherwise not compliant with the Code), will not be used in a shower or bath area unless there is a second entryway which meets the requirements of the Code or unless the door will be used for an application unrelated to shower or bath enclosures.

Customer hereby agrees to indemnify, defend and hold Contractors Wardrobe[®] harmless from and against any and all claims made against Contractors Wardrobe[®] resulting from shower doors purchased by Customer that do not meet the requirements of the Code.

This document shall apply to all orders placed with Contractors Wardrobe[®] and may not be changed by the terms of any Purchase Order or other document submitted to Contractors Wardrobe[®] by Customer.
